

# MOHD SAKIB ANSARI

Email: mohdsakibansari432@gmail.com | Phone: 9820817430

## Skills

**languages:** Dart, Python, JavaScript, HTML, CSS

**frameworks\_libraries:** Flutter, Django, Flask, FastAPI, MVVM, MVC, REST APIs

**databases\_storage:** SQLite, MySQL, Firebase (Real-time Database), Hive (Local Storage), SharedPreferences

**tools\_platforms:** Git, GitHub, Android Studio, VSCode, Postman

**other\_technical:** Project Management, Audio Processing, File Storage, API Integration, Responsive UI Design, Problem-Solving

## Experience

- Valensc Solution LLP

Designed app architecture using MVVM pattern components, improving code maintainability. Integrated Firebase real-time database for authentication functionality.

- DigiLateral

Implemented functionality to fetch images from a server using REST APIs. Integrated multiple APIs for fetching and posting data, ensuring smooth communication between the app and backend services. Developed and implemented multiple login flows for distinct user roles (e.g., teachers and students, admin, user).

## Education

SSC - DayaSagar English High School

HSC - KalaVidyalaya High School & JR. College

Bachelor in Information Technology - Smt. K. G. Mittal Institute of Management, Information Technology and Research

## Projects

### To-Do List App

Developed a task management app with features like adding, editing, and deleting tasks. Implemented local storage using SQLite.

Technologies: Flutter, Dart, SQLite

### Pokémon App

Developed a mobile application using Flutter to manage Pokémon data with GET and POST APIs (Third party API). Fetched Pokémon data from a public API to display details such as name, type, and abilities in a user-friendly interface.

Technologies: Flutter, Dart, REST APIs

### IcerateImage

Developed a feature-rich image editing tool integrated into the project, enabling users to fetch images from the server, edit them with customizable text overlays, and export the edited images in both PDF and JPG formats. Delivered a robust and scalable image editing solution with multi-format export

functionality for creative and professional use cases.

Technologies: Flutter, Dart, SQLite

### **Voice Recorder with Audio Processing Project**

Designed and implemented a voice recorder application that captures audio recordings, sends them to a backend server for processing, receives filtered audio with background noise removed, and saves the processed audio to the system for offline access and future use.

Technologies: Flutter, Dart, SQLite, Python (Backend)

## **ATS Analysis**

ATS Score: 87/100

Missing Skills: Flutter State Management (e.g., BLoC, Riverpod, Provider), Unit and Widget Testing (Flutter), Cloud Deployment (e.g., AWS, GCP, Azure), Docker/Containerization, API Security (e.g., JWT, OAuth2)
